-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicants' election of species in the response filed 4/13/2006 is acknowledged.

Drawings

2. Figures 1, 3 and 4 are objected to because numerous values printed on the plots are overwritten with other values, and are therefore illegible.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 26-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) Claims 26, 29-32, 35-39, 42-45 and 48-51 are indefinite because the variable parameters in the structure have not been defined.

(b) Claims 26-51 are indefinite because the claims are internally inconsistent, in that the resin composition is both unlimited with respect to additional components which may be included in the composition, but limited in the requirement that the monoazo compound must be of a purity "not less than 90%". The simultaneous requirement that

the overall resin composition: (i) may include additional components of unlimited type and quantity, and (ii) is limited in the quantity of certain unidentified components, renders unclear the scope of what may and may not be included in the claimed resin composition.

The issue of whether or not certain "impurities" are contained within the claimed product appears to be a central feature of the instant application. Accordingly, a properly focused search and consideration of the prior art (including references cited on applicants IDS) cannot be made until issue 4(b) as set forth above has been clarified.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
